

Typical EMPT Industrial Application: Drive Shafts and Chassis

Steel to steel
St52
WT 2,5mm
Diameter 35mm

Application:

Seat height regulator

Materials:

Steel and Aluminum

Machine type:

PS64 and PS80

Customers:

Automotive OEMs, Automotive Supplier

Benefits:

No heat input, cycle time halved,
cost reduction, no operator training required

Application:

Lightweight and high strength stabilizer

Materials:

Steel and Aluminum

Machine type:

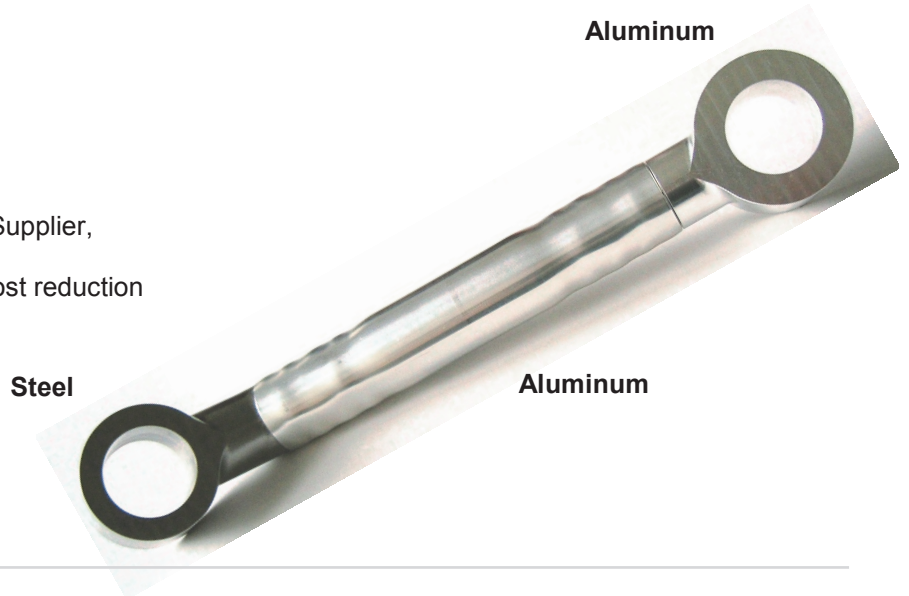

PS64 and PS80

Customers:

Several Automotive OEMs, Automotive Supplier,

Benefits:

No heat input, material mix, significant cost reduction
no trained personal needed

Application:

Drive Shaft and hybrid Drive Shaft

Materials:

Steel and Aluminum, Metals with Non-Metals

Machine type:

PS64, PS80 and PS112

Customers:

Automotive Supplier, Forest Products Industry

Benefits:

No heat input, material mix, significant cost reduction
cycle time reduced by 75%, no trained personal needed
